

1. On your iPhone, Open the **Your certificate is Ready!** email and download the **.Pkpass** file.
2. By clicking on the file attached in the email the wallet pass preview will pop up and all you need to do is click **Add** on the top right corner, the certificate will be added to your wallet.
3. Browse in your apps, open **Wallet** and you should be able to see your certificate at the bottom.
4. Review the details on the front and in **Pass Details** and contact us if any information needs correction or if you have any questions.
